

# NOVIA

## Product Health and Safety datasheet

<b>Product Name</b>	Novia Grade DO93/130 Universal Breather Membrane
<b>Hazard classification</b>	Non-Hazardous
<b>Component Materials</b>	Non-woven polypropylene fibres and vapour permeable polymer coating

### Health Hazard Information

- **Inhalation (after combustion):** There is a minor health risk if there is prolonged inhalation of the products of combustion from substantial burning. The major combustion products are carbon dioxide, water, carbon monoxide and smoke particles. Symptoms would be nausea, dizziness or breathing difficulties. Any person affected should be moved to fresh air, and if necessary medical attention provided.
- **Ingestion:** The product has low toxicity, consult a doctor if required.
- **Bodily contact:** No known adverse effects.

<b>Handling / storage</b>	No special precautions are required. Store rolls under cover, flat if possible, and away from direct ground contact.
<b>Fire Extinguisher type</b>	Water, carbon dioxide or foam are suitable
<b>Disposal</b>	Not classified as notifiable waste
