Monofilament 250

Vapour Control Layer

Health and Safety Sheet

IDENTIFICATION

Product: Monofilament 250
Use: Vapour Control Layer
Supplier: Icopal Ltd, Barton Dock Road, Stretford, Manchester, M32 0YL.

COMPOSITION

This product is produced from two layers of low density polyethylene (LDPE) encapsulating a high density polyethylene (HDPE).

ADDITIVES

Infrared absorber, UV light absorber

TOXICITY

All component materials are essentially non-volatile and of low toxicity. The major components can be regarded as essentially harmless.

FIRE

This product does not contain any volatile solvents therefore there is no associated flashpoint. Combustion of this product will produce carbon dioxide. In areas of poor ventilation the carbon dioxide may cause difficulty in breathing.

INHALATION

In case of exposure to fumes released from heated material, remove person to fresh air and summon medical attention.

EXTINGUISHING MEDIA

CO2 / Foam / Dry Chemical

FURTHER INFORMATION

All products should be used in accordance with manufacturer's instructions. For suitability for other applications or further advice contact the address below.

NOTE: This information is given in good faith being based on the latest knowledge available to Icopal Limited. Whilst every effort has been made to ensure that the contents of the publication are current while going to press, customers are advised that products, techniques and codes of practice are under constant review and liable to change without notice.

Up to date information is available from the Technical Department on request.

Responsibility cannot be accepted for the application of products, and no claims can be considered, where the manufacturer's instructions have not been followed. The user should not assume; based on any information provided in this sheet, that the product is suitable for any abnormal use.

All products are sold subject to our standard conditions of sale, available on request.
