KNAUF HIGH SUCTION PLASTER PRIMER

1. Identification of the substance / preparation and company

Substance / preparation

- Knauf Solvent-Free primer and adhesive bridge.

Supplier

Knauf Drywall
Head Office
P.O. Box 133
SITTINGBOURNE
Kent
ME10 3HW

Telephone: (01795) 424499
Emergency telephone: 01795 416270

2. Composition/Information on ingredients

Watery dispersion of a butylacrylate styrol copolymerisate, cellulose ether.

3. Hazards Identification

Non-hazardous.

4. First Aid Measures

General Info: Remove contaminated clothing.
Skin contact: Wash with soap and water.
Eye contact: Rinse thoroughly for a sufficiently long period in running water.
Ingestion: Rinse mouth immediately, drink copious amounts of water, visit doctor.

Please note: should any symptoms persist obtain medical assistance.

5. Fire-fighting Measures

Product is non-combustible.

6. Accidental release measures

Do not allow larger volumes to enter the drains or outfalls untreated.

Larger volumes should be pumped into containers, smaller volumes absorbed with absorbent material. Rinse off residue with water.

(Refer to section 8 – Exposure/Protection and section 13 – Waste Disposal)

7. Handling and Storage

Notes for safe handling

No special measures.

Notes on fire and explosion safety

Product is non-combustible.

Requirements for storage rooms and containers

Enclosed premises. Protect from frost, intensive effects of heat and sunlight.

8. Exposure controls/personal protection

Exposure limits

None.

Personal protection

Hand: Wash hands before breaks and at end of work.
Eye: No eye contact, wear protective goggles.
Skin: Avoid lengthy contact with skin.

9. Physical and chemical properties

Form:	Liquid
Colour:	Yellow
Smell:	Weak
Melting point/range:	0 C (water)
Boiling point/range:	100 C (water)
Steam pressure:	23 hpa at 20 C (water)
pH value:	5 – 7 at 20 C
Density:	1.05 g/cm ³ at 20 C
Solubility in water :	can be mixed with water
Viscosity:	about 20,000 mPa at 20 C

10. Stability and reactivity

No decomposition during proper use.

HEALTH & SAFETY

11. Toxicological information

With professional handling and use according to regulations the product, in our experience and according to our information, does not have any effects which are damaging to health.

12. Ecological information

The product may be extensively eliminated from water using abiotic processes e.g. absorption in activated sludge.

With proper introduction of small concentrations into adapted biological clarifying plant disturbance of the decomposition activity by the activated sludge is not expected.

The product may not reach the water without being pre-treated (biological clarification.)

Local draining regulations should be observed.

13. Disposal Considerations

Product

Smaller volumes in hardened, dried condition in household rubbish.

Waste

Watery suspensions are non hazardous and their disposal should be in accordance to local regulations.

Packaging

Packaging should be emptied and can be sent for recycling after being cleaned appropriately.

Recommended cleaning agent

Water.

14. Transport Information

Not dangerous goods in sense of national and international transport regulations.

15. Regulatory Information

Marking

N/A

16. Other Information

This product should be used as directed by Knauf. For further information consult the technical department.

An on-site risk assessment should be carried out before use.

This safety data sheet:

- Supersedes all previous issues, and users are cautioned to ensure it is current. Destroy all previous data sheets, and if in any doubt, contact Knauf, quoting the date in the top right hand corner of this document.
- Does not replace the users own workplace risk assessment.
- Was compiled using the current safety information supplied by the distributors of the component materials.
- Is based on the present state of our knowledge and is intended to describe our products from the point of view of health and safety requirement. It should not be construed as guaranteeing specific properties.
