### 9. Physical and chemical properties

Appearance:	Rolls
Colour:	Anthracite
Odour:	Slight
Density:	95-125 kg/m <sup>3</sup>
Auto-ignition temp:	>200°C
Thermal Decomposition:	>200°C

*(Refer to section 2 – Composition/Information on ingredients)*

### 10. Stability and reactivity

Stable and unreactive during normal handling and use.

### 11. Toxicological information

The material contains no components classified as toxic. Prolonged handling may cause skin irritation in some individuals.

### 12. Ecological information

No adverse ecological effects known.

### 13. Disposal Considerations

Can be disposed of at an authorised landfill site in accordance with local or national regulations.

## HEALTH & SAFETY

---

### 14. Transport Information

Not classified as hazardous for road, rail, sea or air transport.

### 15. Regulatory Information

No specific regulatory information applies to the use of the product.

### 16. Other Information

This product should be used as directed by Knauf. For further information consult the technical department.

An on-site risk assessment should be carried out before use.

This safety data sheet:

- supersedes all previous issues, and users are cautioned to ensure it is current. Destroy all previous data sheets, and if in any doubt, contact Knauf, quoting the date in the top right hand corner of this document.
- does not replace the users own workplace risk assessment.
- was compiled using the current safety information supplied by the distributors of the component materials.
- is based on the present state of our knowledge and is intended to describe our products from the point of view of health and safety requirement. It should not be construed as guaranteeing specific properties.
