

## Description

---

EUROSARKING is a 100 % CFC-free and HCFC-free insulation board with a core of rigid polyurethane foam, faced on both sides with silvercoloured gastight and multi-layered complex of kraft and metal foil.

## Technical features

---

### Insulation:

$\lambda_D$ -value:

0,023 W/mK

core volume weight:

30 kg/m<sup>3</sup> ( $\pm 2$ ) compressive

compression strength:

with 10% deformation:

- Min.: 120 kPa (1,2 kg/cm<sup>2</sup>)

- Average: > 150 kPa (1,5 kg/cm<sup>2</sup>)

Note: compression strength may be adapted to specific demands for important quantities.

Damp diffusion resistance number:

50-100

### facing:

Silvercoloured, gastight and multilayered complex of kraft and metal foil.

## Dimensions

---

Standard:

2400 mm x 1200 mm

thickness: 25 to 100 mm

## Applications

---

Insulation for pitched roofs also for floors

## Certificates

---

[BBA 02/3905](#)

ATG 01/2481

ATG H707/2 (in Belgium)

## Standards

---

The production of these insulation boards is certified according to NBN-EN-ISO 9001:2000.
