

building paper sisalkraft® 410

SISALKRAFT® 410

Description

Waterproof building paper / Vapour control membrane.

Applications

1. Breathing Wall - Vapour Control Membrane.
2. Separation layer.

Technical:

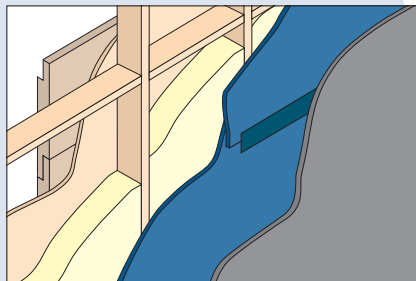

Accreditation: BS1521/B1F

Moisture vapour resistance: 42 MNs/g

Roll specification: 1.25mx50m / 12kg/roll

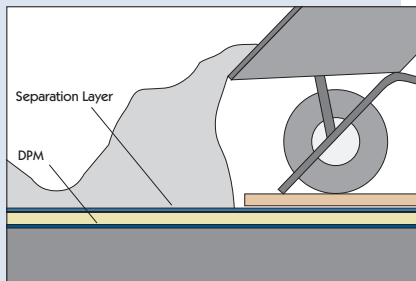

Suitable tapes: Double sided butyl, plastic or foil faced self-adhesive tapes can be used.

Storage: Store rolls vertical in a clean, dry area - protected from flame sources.

1. 'Breathing Wall' - Vapour Control Membrane

- 410 Moisture vapour transmission properties will allow controlled passage of moisture from room side to outside.
- Fix 410 to stud work using nail/staples, with 150mm taped overlaps before injecting insulation.
- *Note: Other product elements of the structure must be selected to reduce condensation risk.*

2. Separation Layer

- Allow 150mm overlaps (sealing laps is unnecessary).
- Lay Sisalkraft 410 above insulation to prevent wet screed soaking into insulation.
